

Aircraft Audit Support Services Fact Sheet

“Reliance Aerospace Solutions prides itself in understanding its Customers’ needs and providing Customised Solutions tailored to meet these needs

Service Overview

With unmatched experience and expertise, Reliance Aerospace Solutions offers its Customers support services designed to assist an Airline through the various stages of an aircraft pre-purchase or pre-lease audit.

In depth and firsthand knowledge of Airbus, ATR, Boeing, Douglas and Embraer aircraft as well as lease acceptance and return processes, provides a great advantage to our Customers in ensuring the process runs effectively in delivering the Quality of Aircraft expected by our Customers.

Aircraft audits have been performed at numerous airlines and in locations all over the world.

Customers

To date Reliance Aerospace Solutions has provided Aircraft Audit Services at 48 airlines in 24 countries world-wide for over 257 aircraft ranging from turbo prop ATR 72s to long range A340-300...

“Luxair used the services of Reliance Aerospace Solutions in the audit and pre-lease inspection of a 737-800. The services provided by Reliance were very professional with a wealth of experience and customer oriented. The report submitted at completion was excellent. Luxair will not hesitate to use Reliance again.”

Horst Lenhard
VP Technical Services
Luxair S.A.

Experience

- Reliance has performed over 240 audits performed so far.
- Reliance offers an unmatched experience due to the number of aircraft inspected and lease agreements reviewed.

In setting up the new Olympic Air (the new airline acquiring the logo/name of the Greek national carrier as part of the government privatisation process) we took delivery of both new aircraft as well as pre-owned aircraft from Lessors. Having previous positive experience with respect to services for delivery of new A320 from the Airbus production line we had no hesitation in selecting them once again. In addition we used Reliance to assist us in the audit of pre-owned aircraft in Abu Dhabi, UK, Austria and Germany. Reliance was very reactive to our needs and the personnel are professional, experienced and reliable with an ability to communicate salient points as well as take good decisions on behalf of their client.

Thanos Pascalis
Chief Operating Officer
Olympic Airways

Reliance Aerospace Solutions supported us during the redelivery of 737-400 and provided engineering support for records etc and engineering support during the D check at the MRO facility in February 2006.

Reliance staff has been of immense value to this project, their calmness, political neutrality and ability to deal with just about anything we can throw at them is greatly appreciated. Many thanks for your continued support.

Don Landsborough
Manager, Group Fleet Management & E&M
TUI Airline Management
